

From... 'Simpler Integrated presentation of Photo Collage Art' – Chelyabinsk, July 2016

During...A Talk by: Susan M. Griffith-Jones

PURE VISION... (When opened up becomes...)

...TRANSFORMED INTO ORGANISED CONFUSION

The name of this piece is "Pure Vision transformed into Organised Confusion".

Here I display harmonic resonance in relation to our DNA.

QUESTION: Can you see how DNA is portrayed in the picture?

Indeed, you can see the photo strips portraying strands of the DNA double helix spiraling around the central image.

And this picture is just a segment in a chain that goes on and on.

CHAIN OF ORGANISED CONFUSION

The ultimate message in these pictures is to become a compassionate and wise artist.

You can do this, because compassion relates to our 'light' aspect and wisdom, to that of 'sound'.

Through shining your beautiful consciousness onto the universal frame with these inherent instruments of yours, you too can create a beautiful and harmonious world.

You are the artist ! Go and paint beautiful pictures !

MOVIE 4: DYNAMIC HUMAN MANDALAS EXPRESSING 'PURE VISION TRANSFORMED INTO ORGANISED CONFUSION'
